1. Claims 1-47 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor suggests a recording/reproducing apparatus for recording and reproducing information, the recording/reproducing apparatus having a first stabilizing member rotating a surface of a recordable flexible disk suppressing surface vibration of the recordable disk in at least in a vicinity of a recording/reproducing location by utilizing an aerodynamic effect; and a recording/reproducing part conducting a recording and/or reproducing process at a reverse side being opposite to an action surface being a main surface of the recordable disk, wherein the recordable disk surface is divided into two regions by a first straight line being approached to a movement line for the recording/reproducing part to scan and passing a vicinity of a center of the recordable disk, and an second stabilizing member is arranged in at least one of the two regions so that a counterforce of the recordable disk surface is increased, in which the counterforce occurs when the first stabilizing member is influenced by occurring an aerodynamic action force on the recordable disk surface at a location where the first stabilizing member is located as set forth in claim 1 (similar for claims 11, 12, 15, 16, 17, 30, 33, 44, 45 and 46).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
